JUNE 1935

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each or 25 cents a year (foreign, 45 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

PROCEDURE FOR HANDLING AND INSPECTING IMPORTED MEATS

Foreign meat and meat food products arriving in the United States by water at a port where an inspector of the Bureau is stationed shall either be inspected on the wharf at the time of unloading or be shipped in United States Customs custody under import meat or United States Customs seals to destination for inspection, if an inspector of the Bureau is stationed at destination.

Foreign meat and meat food products arriving in the United States by water at a port where an inspector of the Bureau is stationed, which are destined to a point in the United States where no inspector of the Bureau is stationed, shall be inspected on the wharf at the time of unloading.

Foreign meat and meat food products arriving in the United States by water at a port where no inspector of the Bureau is stationed, which are destined to a point in the United States where an inspector of the Bureau is stationed shall be shipped in United States Customs custody under import meat or United States Customs seals to destination for inspection.

Large quantities of foreign meat and meat food products arriving in the United States by water at a port where no inspector of the Bureau is stationed, which are destined to a point in the United States where no inspector of the Bureau is stationed, shall be inspected on the wharf at the time of unloading. In such cases the United States Customs officer at the port shall immediately telegraph the nearest inspector in charge of the Bureau all facts in connection with the shipment. Upon receipt of such telegraphic information the inspector in charge of the Bureau shall immediately detail an inspector to the port to make the required inspection.

Small quantities (less than carload lots) of foreign meat and meat food products arriving in the United States by water at a port where no inspector of the Bureau is stationed, which are destined to a point in the United States where no inspector of the Bureau is stationed, shall be shipped in United States Customs custody under import meat or United States Customs seals to the nearest point where an inspector of the Bureau is stationed for inspection at that point.

Carload lots of foreign meat and meat food products routed through border ports, which are destined to a point in the United States where an inspector of the Bureau is stationed, shall proceed to destination in United States Customs custody under import meat or United States Customs seals for inspection at destination.

Carload lots of foreign meat and meat food products routed through border ports, which are destined to a point in the United States where no inspector of the Bureau is stationed, shall proceed to destination in United States Customs custody under import meat or United States Customs seals for inspection at destination. In such cases the inspector of the Bureau or the United States Customs officer at the border port shall immediately telegraph the Bureau's inspector in charge at the nearest point to which the foreign meat and meat food products are destined all facts in connection with the shipment. Upon receipt of such telegraphic information the Bureau's inspector in charge shall immediately detail an inspector to the point where the meat and meat food products are destined to make the required inspection.

Less than carload lots of foreign meat and meat food products routed through border ports, which are destined to a point in the United States where an inspector of the Bureau is stationed, shall proceed to destination in United States Customs custody under cord and import meat or United States Customs seals for inspection at destination.

Less than carload lots of foreign meat and meat food products routed through border ports where an inspector of the Bureau is stationed, which are destined to a point in the United States where no inspector of the Bureau is stationed, shall be inspected by the inspector of the Bureau at the border port.

Less than carload lots of foreign meat and meat food products routed through border ports where no inspector of the Bureau is stationed, which are destined to a point in the United States where no inspector of the Bureau is stationed, shall proceed in United States Customs custody under cord and import meat or United States Customs seals to the nearest point where an inspector of the Bureau is stationed for inspection at that point.

M. I. Forms 109–FF and 109–FF (special) shall be issued by inspectors of the Bureau and United States Customs officers at border or seaboard ports for reporting the sealing of railroad cars, trucks, and packages of foreign meat and meat food products to Bureau inspectors in charge at points where such products are to be inspected.

Rubber stamps will be furnished upon requisition for marking United States Customs and transportation papers to show that foreign meat and meat food

products are permitted entry, refused entry, or are transported in United States Customs custody to interior points in the United States for inspection.

Foreign chilled fresh meat shall be inspected in the same manner as domestic chilled fresh meat.

A 10 percent inspection shall be made of each consignment of foreign frozen *fresh* meat, and if a considerable portion of the samples examined are found to be in an inacceptable condition then a 100 percent inspection of the consignment, including defrosting if necessary, shall be made.

Samples of foreign canned and packaged meat and meat food products bearing trade labels which have not been approved shall be collected and forwarded to the laboratory for examination, and the meat and meat food products shall be retained pending receipt of the report of the laboratory findings and the results of the examination of trade labels and the marks on shipping containers.

Foreign meat labels accompanied by a description of the marks on shipping containers shall be submitted to the Bureau in duplicate together with information concerning the name and address of the foreign manufacturer, and a translation prepared by the importer showing the English equivalent of all foreign reading matter appearing both on the trade labels and the shipping containers.

Foreign canned and packaged meat and meat food products bearing trade labels and other markings which have been approved and numbered shall be inspected for soundness and checked for net weight. Check samples may be collected for laboratory examination, but the meat and meat food products need not be retained pending the report of laboratory findings.

A single unopened can with all marks and labels intact shall constitute a minimum sample of canned meat and meat food products. The inspection of foreign meat in large cans, such as canned whole hams, may include opening one can or more if necessary and noting the characteristics of the product. In such case a small sample of the meat may be forwarded to the laboratory for examination and the rest of the contents of the can be left in the possession of the importer.

A number of cans sufficient in the judgment of Bureau inspectors to be representative of the whole consignment shall be taken from more than one case when consignments of foreign canned meat and meat food products consisting of large numbers of small cans are sampled.

Parts of cattle carcasses are removed in Australia on account of the presence of the parasite known as *Onchocerca gibsoni*, and as the parasite may locate in other parts of the carcass without being readily detected mutilated forequarters and hindquarters of beef from Australia shall be refused imporation. This prohibition does not apply to beef cuts showing no evidence of infestation with *Onchocerca gibsoni*, which may be imported subject to the requirements for other meat.

Small quantities of meat and meat food products imported for the personal use of the consignee under section 11 of regulation 27 shall be reported to the Bureau by letter and not on M. I. Form 109–J.

United States inspected and passed and so marked meat and meat food products returned from foreign countries are not importations within the meaning of regulation 27. Such return shipments shall be reported to the Bureau by letter and not on M. I. Form 109–J.

Foreign inedible rendered fats which do *not* possess the physical characteristics of an edible product are eligible for importation without restrictions. Such importations need not be reported to the Bureau.

New York, Chicago & St. Louis Railroad Co., interstate transportation of 1 dead hog in the same car with live animals (Ohio to New York), $100 fine.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket no. 463.—In re Salina Sales Pavilion, Salina, Kans. On April 5, 1935, the Acting Secretary of Agriculture issued an inquiry alleging that respondent had violated the Packers and Stockyards Act in that it had failed, neglected, and refused, to execute and maintain a reasonable bond to suitable trustees to secure the performance of its obligations incurred as a market agency and dealer. On June 6, 1935, respondent admitted the truth of the matters and things alleged in the inquiry and waived a hearing thereon. On June 4, 1935, respondent executed a sufficient bond to cover its obligations. On June 26, 1935, respondent was ordered to cease and desist from doing business as a market agency and dealer without executing and maintaining a reasonable bond, or without submitting some other form of indemnity which would afford substantially equivalent protection.

Stockyards Posted

The Mount Vernon Live Stock Co. Stock Yards, located at Mount Vernon, Ohio, was posted as coming within the jurisdiction of the Packers and Stockyards Act on May 15, 1935; the Bonner Stock Yards, located at Fort Smith, Ark., was posted on May 28, and the Hawarden Livestock Sales Co., located at Hawarden, Iowa, on June 18.

Designated as Public Stockyards

The Memphis Union Stock Yards, Memphis, Tenn., has been designated as a public stockyards as defined in paragraph 8, section 1, regulation 1, B. A. I. Order 309, effective June 1, 1935.

ACCEPTANCE OF GIFTS OR LOANS

The Bureau has received notice of an amendment to the administrative regulations that pertains to acceptance by employees of gifts or loans. The amendment follows:

726. ACCEPTANCE OF GIFTS. No employee of the Department shall accept from any outside person, firm, or corporation with whom the employee has or may have official business relations any gift, money, or other thing of value given or loaned with any purpose or intent whatsoever.

The following extract from paragraph 20 of the Meat Inspection Law of March 4, 1907, is quoted also for the information of employees:

" * * *; and any inspector, deputy inspector, chief inspector, or other officer or employee of the United States authorized to perform any of the duties prescribed by this act * * * who shall receive or accept from any person, firm, or corporation engaged in interstate or foreign commerce any gift, money, or other thing of value given with any purpose or intent whatsoever, shall be deemed guilty of a felony and shall, upon conviction thereof, be summarily discharged from office and shall be punished by a fine of not less than one thousand dollars nor more than ten thousand dollars and by imprisonment not less than one year nor more than three years."

The Solicitor of the Department rules that this law prohibits likewise the acceptance of loans from officers or employees of official establishments.
